PROFESSIONAL EXPERIENCE

Front-End Developer

VU Software House | 2023 - 2024

- Developed and maintained responsive web applications using HTML5, CSS3, JavaScript, and modern libraries/frameworks such as React.js and Next.js.
- Collaborated with UX/UI designers and backend developers to implement user-friendly features and interfaces.
- Optimized website performance and user experience through code refactoring and performance tuning techniques.
- Ensured cross-browser compatibility and responsiveness across various devices.
- Actively participated in code reviews, sprint planning, and agile development processes.
- Successfully delivered [Library Management System] on time and exceeding client expectations.
- Continued professional development by staying updated with industry trends and emerging technologies.

Back-End developer

Internship at Ideoversity | 2025-2026

- Requirement Documentation: Led the documentation of project requirements, ensuring 100% understanding of client needs.
- API Development: In addition to documentation, I was responsible for architecting and developing robust APIs.
- These APIs served as the vital link between the frontend and backend, facilitating seamless data exchange and user interactions..
- Provided team leadership, fostering collaboration and assisting frontend developers in implementation.
